Academic Integrity As a premier Institute for advanced studies in multi-faculties, research and education, the Institute values academic integrity and is committed to fostering

an intellectual and ethical environment based on the principles of academic integrity. Academic Integrity encompasses honesty and responsibility and awareness relating to ethical standards for the conduct of research and scholarship. The Institute believes that in all academic work, the ideas and contributions of others must be appropriately acknowledged. Academic integrity is essential for the success of the Institute and its research missions, and hence, (2) violations of academic integrity constitute a serious offence. Scope and Purpose This Policy on academic integrity, which forms an integral part of the Code, applies to all students at the Institute and are required to adhere to the said policy. The purpose of the Policy is twofold:

1. To clarify the principles of academic integrity, and
2. To provide examples of dishonest conduct and violations of academic integrity. Failure to uphold these principles of academic integrity threatens both the reputation of the Institute and the value of the degrees awarded to its students. Every member of the Institute community therefore bears a responsibility for ensuring that the highest standards of academic integrity are upheld. The principles of academic integrity require that a student:

1. Properly acknowledges and cites use of the ideas, results, material or words of others.
2. Properly acknowledges all contributors to a given piece of work.
3. Makes sure that all work submitted as his or her own in a course or other academic activity is produced without the aid of impermissible materials or impermissible collaboration.
4. Obtains all data or results by ethical means and reports them accurately without suppressing any results inconsistent with his or her interpretation or conclusions.
5. Treats all other students in an ethical manner, respecting their integrity and right to pursue their educational goals without interference. This requires that a student neither facilitates academic dishonesty by others nor obstructs their academic progress. Violations of this policy include, but are not limited to:

(i) Plagiarism means the use of material, ideas, figures, code or data as one's own, without appropriately acknowledging the original source. This may involve submission of material, verbatim or paraphrased, that is authored by another person or published earlier by oneself. Examples of plagiarism include:

In addition, the student should undertake that he/she is aware of the academic guidelines of the Institute, has checked the document for plagiarism, and that the thesis is original work. A webcheck does not necessarily rule out plagiarism. If a student observes or becomes aware of any violations of the academic integrity policy he/she is strongly encouraged to report the misconduct in a timely manner.

b) Faculty roles: Faculty members should ensure that proper methods are followed for experiments, computations and theoretical developments, and that data are properly recorded and saved for future reference. In addition, they should review manuscripts and theses carefully. Faculty members are also responsible for ensuring personal compliance with the above broad issues relating to academic integrity. Faculty members are expected to inform students of the Institute academic integrity policy within their specific courses, to ensure minimal academic dishonesty, and to respond appropriately and timely to violations of academic integrity.

c) Institution roles: A breach of academic integrity is a serious offence with long lasting consequences for both the individual and the Institute, and this can lead to various sanctions. In the case of a student the first violation of academic breach will lead to a warning. A repeat offence, if deemed sufficiently serious, could lead to expulsion. It is recommended that faculty bring any academic violations to the notice of the department. Upon receipt of reports of scientific misconduct, the Principal may appoint a committee to investigate the matter and suggest appropriate measures on a case by case basis.
